WASHINGTON, May 13, 1895.

WASHINGTON, May 13, 189
A great deal of comment
passed recently on the advance lication of Supreme Court de
ions. The publication, a
time in advance of the announ
ment, of the decision of the
case, giving a curate prome
stance of what the decision of
court would be, gave rise to
tresent comment. It is on ex-| Transferred to the property of the property

The Bee.

The pneumatic tire, the greatent single improvement applied to the Cycle, was invented and patented by Dr. John B. Dunlap, about 1888. This tire was received with ridicule as an abaurd impossibility. Many great inventions, if not all, have been so received.

There were two things yesterday which Chief Consul Isasc B. Pot-er lelt highly elated over. The ter lelt highly elated over. The first was the passage of the Cycle Path bill, and the second was the continued good record in point of membership which is being made

continued good record in point of membership inche is being made in this State. The official membership record for the present week is particularly gratifying, and shows that New York is rapidly leaving Philadelphis far behind, and the State is making riginatic strides to catch up with Massachusetts. The list this week shows that New York had added 200 manes to the membership list. To onames to the membership list. To in over 300 more new members than was sent in during the whole of last year. The passage of the law for The Tribune's plan for a cycle path on the surface of the old aqueduct in the surface of the old and the surface of the old aqueduct in the surface of the old and the surface of the old aqueduct in the surface of the old against the surface of the old against the surface of the old and th Charges Reasonable.

The bicycle marks at this moment the utmost advance of inventive thought, and its construction crowns the highest pinnacle of mechanical achievement. The foot of the politic sphere with the condition of the politic sphere where the sare the superlative models combined by the final art of men in a structure which, for lightness and strength, for carrying load and avoiding shock is almost worthy to rank even with the creations of the condition of the first provides and the superlation of the first provides are the superlation of the first provides and the edge wise strain-resistance of the capture is the superlation of the first provides and the edge wise strain-resistance of the capture without change, and the nearest known approach to that motion without change of the centre of

aguillae wing, and the nearest known approach to that motion without change of the centre-of-gravity plane which belongs to the sphere rolling on a straight line— there are the elements combined the combined of the combined chine, whose construction employs to-day perhaps a hundred millions of capital in this country, and the finest and most ingenious machin-ery which American talent can cre-ate.

ery which American talent can creeate.

First a toy and then a whim, and
then that least regreted of all del parted things—a toy and a whim
dropped, discarded and forgotten
—the buyele had the living force
of a vital seed dropped in the fertile soil of a man's eager desire,
and has risen from the dead not
only to be the instrument of one of
sport, but to enter aeriously into
the business and daily life and
pleasures of civilized man in every
division of the globe.

It is a strange story, this of the
velocipede which died only to
spring up again as the beyeck, into

spring up again as the bicycle, int an all-pervading life after reaur rection.

spring up again as the bicycle, into an all-pervading life after resurrection.

As a passing craze among those and a passing craze among those every day some new thing—it crossed the ocean to England, and, when it had become so dead here that the very name was disgrace, and coatly wheels could not even by their owners, because of the odium which horse-owners had succeeded in bringing upon the velocipede, English muscle was rejoicing in a new field of wider-ange eximple in the company of the control of the contr

States in the Sixties. A black-mith by trade and a genius by gift of Good, Lallenuent had conceived which can be constructed, and are that a man supported on an unstable basis of two unfixed points that a man supported on an unstable basis of two unfixed points in the largest massless of the human supported on an unstable basis of two unfixed points in the largest massless of the human in body without loss of balance, and believed that, it is applying those promises to cheapen the production which the foot acted, a man could thereby increase the learned of the operation which the foot acted, a man could thereby increase the learned of the operation that the craft of the cr

Down in the Mines. Mr. J. C. Atkinson, the St. Ber-nard Company's popular agent, at Henderson, will soon take a vaca-tion.

The Crabtree mines was repre-sented here last Saturday by Mr. Richard Salmon.

Superintendent Harris, of the South Diamond mines, made a business trip here one day this week.

Colonel Albert Toombs, of the St. Bernard force, is a strong sympathizer with those afflicted as Job was, as he is likewise suffering with a boil of huge dimensions.

Shipments of coal from Indiana and Illinois mines have increased largely the last few days. One reason is that a number of manufactories which used oil for fuel have gone back to another is that manufacturers and railway compact of the compact of

nonth.

The Hecla Mining Company are making preparations to in-The Hecla Mining Company are now making preparations to in-crease their capacity for producing coal. A new opening is being made and, hereafter, no shaft will be used, but the coal hauled direct from the mine to the tip.

direct from the mine to the tip.

Thousand of miners in Ohio are now out on a strike for higher wages, a movement not justified, when the fact is considered that coal operators do well to dispose of their coal productions in the summer time, even at a reduced price, and can not, therefore, afford to advance the price of labor.

to advance the price of labor.

Mestrs Powell & Ashby, the
new coal operators at Sebree, have
determined to sink thee and
down to No. 9 vein of coal, and
have now a good force at work
This company, it is said, is a
strong one financially, and they
intend going down until a good
working vein is atruck, and then
working vein in a struck, and then
a control of the company of the
veiloped.

The sestiment of the fellowing tibets mainted from Forenan L. H. O'Brien and was embodied in verse, at his conjugation, by Mr. Jease Philips. Il sets ferth in a clear and concise manner the character of Mr. William F. Piku, who crossed the control of the conference of the responsible position of polytrical Superlanded.

WILLIAM PRESTON PIKE The first waves always wash the higher Reaching out beyond our sight. We off forget that there are ethere Stopping marcer in their flight. The jack has man whom of loved ones, Tell their deeds unto the world; like the waves that wash the highest. Too far from us they under

Vevelets—little doeds of kindness— Then ert nearer to each heart, We see thy beauty and thy grander In our life thou hast a part. There are men among the living, Likewise men among the dead, Who have made this werld grow They, hy William Pika ware led.

If a men was in the gutter,
And with men he could not stand,
Williem would not pass by him,
But gently lend a helping hand.

But gently lead a helping hand.
The man thet's fallen was his object,
Help him apward when he could,
For deeds like these we sound his prais.
For more men like him, pray, we shon
No eas knews the ects of kindness.
No ons knows the hearts made light,
No ons knows the men made better,
No ons knows the men made helpt.

Twas not for show these acts were prompted, They came from a pure and honest heart, Full of love for his fellow being, Always ready to give the "start."

Yet Death, thei norse of dresmisse slun Who receives as all alika, Has taken one oat from amoug as, That one, William Preston Pike.

Engineer Pat Whalen, we are sorry to say, is confined to his home with an afflicted leg that is ausing him a great deal of pain.

The movement of fruit and veg-etables north, has caused business on this division to show an in-crease, and the boys are therefore making better time.

Quite a number of the boys took a fishing trip last week, over on the Wabash river, and report a nice time.

con the Wabash river, and report a nice time.

Experisor Sullivan was out last week with the work train, and loaded and distributed thousands of the son the Henderson division.

Two or three banana treat the surface of the surface

An Esstern railroad company offers a prize to the engineer whose
engine consumes the least amount
of coal during a given time.

Several side tracks on the Henderson division will be extended
this season. At the one at Rank
about one fourth of a mile will be
saffed to it.
